Concealed behind a wardrobe door, this bathroom reveals a raw and robust palette of ironbark and stainless steel. The stainless steel vanity top was folded locally and fixed directly to the stud wall and can be unscrewed and recycled at the end of its life. The bathroom is lined with stainless steel in the shower area, confining the water-resistant materials to the wet areas and timber to the dry areas.

- Brodware hand shower on rail (WELS 3 Star)
- Brodware city stick wall set basin taps (added on aerator WELS 6 Star)
- Terrazzo Tile in Earth by Fibonacci Stone with a 100 per cent rated green star
- 6 mm solid stainless steel vanity top
- Ironbark drawer veneers, finished with Feast Watson Fine Buffing Oil
- Alape Unisono 400 counter Basin
- Duravit Darling WC (WELS 4 Star)
